

HALFWAY MARK REACHED IN BOAT LINE STOCK SALE

Though Widely Distributed, Few Subscriptions Are for Large Amounts.

Less than one-half of the sum necessary for the establishment of the Richmond-New York Steamship Company has been subscribed, according to H. W. Ellerson yesterday. No announcement has been made of the approximate amount on hand, however.

Stock has been issued for \$500,000, of which half is payable immediately and the remainder in semiannual installments. A determined effort has been launched by those working on the subscription committee. While the stock is said to be widely distributed, few subscriptions have been received for large amounts.

The Lake Frances is expected to sail Wednesday from Pier No. 46, East River, at the foot of Jefferson Street, New York, for Richmond. It is probable that should this schedule be followed the boat will arrive here Friday with its first cargo and make a docking at the former Old Dominion wharf, Harris, Magill & Company, 35 South Williams Street, New York, will begin receiving cargo tomorrow morning. A well known Virginia pilot, who has seen many years of service on James River, will have charge of the boat.

Citizens of Richmond are urged to subscribe liberally to the line, aside from the investment feature, because of the excellent maintenance of prevailing low freight rates. "Routing orders" will be furnished upon the line by Samuel S. Rosendorf. Every line of business here will be enlisted in support of the boat line project, and completion of the campaign for stock is expected to be made this week.
